

Decapeptyl

Store Decapeptyl in a fridge between 2-8 degrees, if you are transporting your medication keep it in a cool bag with an ice pack and put it in the fridge as soon as possible. Once opened you can only use each pen within 28 days. Ensure the pen is within the expiry date.

- Remove the syringe from the packaging and remove the grey protective cap
- Slowly push the syringe until the air bubbles are expelled and a small drop of liquid appears at the needle tip
- Clean the injection site with a disinfectant wipe
- Pinch approximately 5 cm of skin between your thumb and index finger and insert the syringe
- Press the plunger slowly to inject the full contents of the syringe
- Dispose of the used syringe in a sharps bin

You can find more information [here](#) if required.
