

Ganirelix

Store the medicine in a cupboard at room temperature, away from heat, moisture, and direct light. Keep from freezing.

- Take syringe out of plastic cover and remove needle shield
- Pinch approximately 5 cm of skin between your thumb and index finger
- Insert the needle at an angle of 45 degrees to 90 degrees to the skin surface
- If correctly inserted, push down the plunger slowly and steadily until all the solution has been injected
- Dispose of the used syringe in to a sharps bin

You can find more information [here](#) if required.
